About the class:

Segmental Retaining Walls Installer Course – Level I/Basic

The one-day Segmental Retaining Wall (SRW) Installer Course teaches installers fundamental SRW installation guidelines, material and system component properties, soils and compaction, the effect of water, and site practices.

Who Should Attend?

The NCMA SRW Installer Course has been designed for all individuals involved in the residential and commercial installation of SRW's, including:

- Company owners and principals
- Crew leaders
- Job superintendents
- Crew members (with minimum one year installation experience)
- Forepersons and supervisors

Why Apply for Certification?

The NCMA SRW I Installer Course imparts the necessary knowledge and industry guidelines required to build segmental retaining walls. Going further by passing the certification exam and meeting the minimum installation experience requirements demonstrates that you meet the criteria established by the industry to become a certified SRW Installer (CSRWI).
