Alta wall is a versatile wall for everyday landscape applications. Its tapered design simplifies installation of inside and outside curves so you can design with freedom. The hollow core design and rear lip connection make this wall system a go to system for professionals.

- 6”X16” WALL FACE
- HARD SPLIT ROCK TEXTURE
- REAR LIP CONNECTION SYSTEM
- SINGLE SIDED WALL SYSTEM
- TAPERED SIDES
- 1” SETBACK PER COURSE
- HOLLOW CORE
- GRID CHARTS AVAILABLE
**NOTE:** All walls over 2’ in height or as required by local code should be designed by a licensed professional engineer. All measurements are nominal. Variance in square footage or linear footage coverage can be up to 5% depending on joint width. The possible occurrence of efflorescence does not affect the structural integrity of the product. Efflorescence is a normal occurrence in concrete products and will dissipate with normal weathering. The use of concrete as a base or setting bed may increase the possibility of efflorescence.

### ALTA WALL UNITS

<table>
<thead>
<tr>
<th>SIZE</th>
<th>PCS / SF</th>
<th>SF / PALLE</th>
<th>PCS / PALLE</th>
<th>LBS / PALLE</th>
</tr>
</thead>
<tbody>
<tr>
<td>6” x 16” x 12”</td>
<td>1.5</td>
<td>26.6</td>
<td>40</td>
<td>1,962</td>
</tr>
<tr>
<td>Corner: 6” x 8” x 12”</td>
<td>2</td>

### ALTA WALL - TYPICAL GRAVITY CROSS SECTION

Maximum un-reinforced wall height is 36” under ideal conditions.

### NOTE:

Maximum exposed height for gravity walls is 36” under ideal conditions. Soil type, Crest Slopes and surcharges will decrease max exposed height for gravity walls. Consult a professional engineer to determine site and specific colors.
