MATCH THROW (MT)

ABOUT

Simple and easy to operate, the Match Throw (MT) System combines convenience and variable flame. Lighting the fire is as simple as lighting a butane lighter or match, placing the flame near the burner and slowly turn the key to operate the valve. Once lit, the flame is fully adjustable at the key valve.

MT OPERATION

1. Insert key into shut-off valve and secure key onto square end of the valve.
2. Light a long match or butane lighter and hold it near the burner.
3. Slowly turn the key counter-clockwise inside the gas valve (until it stops, which allows the gas to flow) and simultaneously apply the long burning match or Butane lighter as close to the end of the burner as possible.
4. To turn off the fire pit, insert key into key valve, turn the key clockwise and the gas will shut OFF.

FEATURES

• Tested and Approved to: ANSI Z21.97-2014/CSA 2.41-2014 standards by Underwriters Laboratories (UL)
• Key valve with key valve cover and 12” key
• Optional: Battery operated manual spark push button ignition
• Fully adjustable flame height
• Fully assembled and ready to install
• Each unit ships with a 46” tranquiline flex line and all fittings necessary for installation
• Pans available in round / square / flat configurations in a variety of sizes
• Natural Gas with optional Liquid Propane conversion available
• Warranty: Five (5) years on stainless steel components. Two (2) years on gas valve, spark ignition components. Commercial Applications: One (1) year on all parts.
